citizens online:
considerations for
today & the future

Annual Conference of the Australian Computer-Human Interaction Special Interest Group (CHISIG)

As we start to embrace the wired world, *Citizens Online: Considerations for today and the future* will bring together an International community of HCI researchers, practitioners and public servants in Australia's capital city, the hub of our Government, to explore issues of how we interact with public sector services, commercial organisations, intelligent systems, and each other.

21 - 22 November
Workshops & Tutorials

22 November
Doctoral Consortium

23 - 25 November
Case Studies, Papers,
Posters, Panels,
Demonstrations

This conference will be a must for anyone interested in eGovernment, eVoting, electronic citizenship, as well as all other HCI related research. It will reveal tools and techniques that will help deliver a better user experience, relate ways in which useful methods have been applied, and investigate new directions in human-computer interaction research.

OZCHI is Australia and New Zealand's leading forum for work in all areas of human-computer interaction. As the annual conference for the Computer-Human Interaction Special Interest Group of the Human Factors and Ergonomics Society of Australia, OZCHI attracts an international community of researchers and practitioners with a wide range of interests, including usability, information architecture, interaction design, human factors and ergonomics, human-computer interaction, information systems, software engineering, artificial intelligence, design, social sciences and management.
